

Madcap, Going On The Road

You can make a change
if you can make it now
not going to school, not going to work
Just think to get the fuck out of this town
Just fuck it all

Just wanna go on the road with my friends
Going on going on going on the road
Cause I have nothing holding me back in this town
So I'm going on going on going on the road
going on going on the road

Number one at any moment of my life
Is just to quit my job
and grab my guitar
And get out of this stinking hole
I call my home, Fuck that place

And go on the road
go on the road with my friends
Go in on going on going on the road
Cause I have nothing holding me back in this town
So I'm going on going on going on the road
Going on going on the road

Number one at any moment of my life
Hey! Hey!
Is just to quit my job
and grab my guitar
And get out of this stinking hole
I call my home

And go on the road
go on the road with my friends
Going on going on going on the road
Cause I have nothing holding me back in this town
So I'm going on going on going on the road
Going on going on the road
Yeah!
