

Madeleine Peyroux, Playin'

(Galison/Peyroux)

Playin'

Stuck on the corner of the afternoon

I hear the sound

Some heart-aching

Oh just the same old tune

Playin'

Playin'

Autumn falling in my old chapel

I've got a mind to get the whole world shaking

Every little place I go

Tell you the story of the angels in the streets singing

There ain't no glory but the blues

And you'd lie in the rain

And all because you know you ain't got nothing to lose

Just playin, playin'

I know my life may be just a song

And I'll survive when the world's overtaken

Cause I love to play along

Tell you story of the angels in the streets

Singing there ain't no glory but the blues

And you'd lie in the rain

And all because you know you ain't got nothing to lose

Just playin, playin'

Maybe my life is just a song

I know I'll survive when the world's overtaken

Cause I love to play along

Yes I know I'll survive when the world's overtaken
