

Madeon, The City

There is a place in the distance
A place that I've been dreaming of
No, oh time and space don't exist
and we can dance like theres no tomorrow

There is a place
No time and space

We've got tomorrow, to think about tomorrow /4x

I can feel the city,
Crumbling around me.
I can't seem to find my way.
I can see a bright light,
Crawling through the dark night.
Hoping that I'll find my way.

Yeah, I've had what I've wanted,
and it went away so fast, fast.
Yeah, I've got to let go,
We can dance like theres no tomorrow.

So here we go

We've got tomorrow, to think about tomorrow /4x

I can feel your heartbeat,
Underneath the concrete.
Just like a kick drum plays.
Running in a straight line,
Got hit by the street lights,
Pushing the dark away.

Yeah, I've had what I've wanted,
and it went away so fast, fast.
Yeah, I've got to let go,
We can dance like theres no tomorrow.

There is a place in the distance,
A place that I've been dreaming of.
No, oh, time and space don't exist,
and we can dance like theres no tomorrow.

There is a place in the distance,
A place that I've been dreaming of.
No, oh, time and space,
and we can dance like theres no tomorrow.

We've got tomorrow, to think about tomorrow /4x

Tomorrow /2x
So we can dance.
