

Madison Beer, Melodies

I hear melodies in my head
Find little notes in my bed
I got songs tangled up in my hair
I see piano keys everywhere
My heart is a beating drum
Repeating my favourite song
I hear faiths over number night
All the time

And is kinda like do re mi
About as easy as a b c
Beautiful like a symphony
I?m talking about you and me

I hear melodies in my heart
Keep the melodies in my head
I was a little odd keep and you never die me and I?m better than ever
I hear melodies in my heart
Keep the melodies in my head
I have to be wrong but I got a new song now

So I put my headphones on
Talking to you /2x
So you?re my favourite song
Talking to you /2x

You?re so wrong
That it makes you right
Keep me wide awake at night
I can?t sleep now I know you?re around
I?ll la-listen and singing every sound
I love it when I hear your voice baby I don?t think we really had a noise
Mozart is in the air
And I?m right here

And is kinda like do re mi
About as easy as a b c
Beautiful like a symphony
I?m talking about you and me

I hear melodies in my heart
Keep the melodies in my head
I was a little odd keep and you never die me and I?m better than ever
I hear melodies in my heart
Keep the melodies in my head
I have to be wrong but I got a new song now

So I put my headphones on
Talking to you /2x
So you?re my favourite song
Talking to you /2x

I wake up in the middle of the night
Can?t stop for the melodies that I hear
The melodies baby I hear
Melodies all the time
And I?m about to go crazy
Keep on singing I?m about to see you baby
You?re my melodie
And I ? I hear melodies in my heart

I hear melodies in my heart
Keep the melodies in my head
I was a little odd keep and you never die me and I?m better than ever

I hear melodies in my heart
Keep the melodies in my head
I have to be wrong but I got a new song now

So I put my headphones on,
Talking to you /2x
So you're my favourite song
Talking to you /2x

So I put my headphones on
Talking to you /2x
So you're my favourite song,
Talking to you /2x
