

# Madita, Better Brother

I'm falling too deep  
In your arms I'm a creep  
I'm weak and cheap  
Unfold to seek  
I'm older but I freak  
No border when you're with  
Me and kiss  
My cheek  
You'll be a better brother  
You, you will be  
You, you will be  
You'll be a better brother  
You, you will be but not for me  
You'll be a better brother  
You, you will be  
You, you will be  
You'll be a better brother  
You, you will be but not for me  
You, you will be but not for me  
No touching I bleed  
My wounds are still too deep  
Weepy me  
Sleepy still  
No matching indeed  
I'm losing my feel free  
To hush  
It  
You'll be a better brother  
You, you will be  
You, you will be  
You'll be a better brother  
You, you will be but not for me  
You'll be a better brother  
You, you will be  
You, you will be  
You'll be a better brother  
You, you will be but not for me  
You'll be  
You, you will be  
You, you will be  
You'll be  
You, you will be but not for me  
You'll be  
E-e-e-e e-e-e-e  
You'll be  
You, you will be but not for me
