

# Madness, Are You Coming With Me

Could it be someone's telling lies  
Or could it be that I'm getting wise  
Awoke myself from a nose-dive glide  
I caught myself but you've lost all pride

I'm not going with you  
Won't you come on with me ?

See your world in a drift fly past  
So good the feeling you want to last

I'm not going with you  
Would you come on with me ?

I'm not here to watch day and night  
Or to hear you drift out of life

If I could wake you  
A moment I would  
Share you my lifeline  
Feed you some good  
If I could wake you  
A moment I would  
Share you my lifeline  
Feed you some (good)

I'm worried for you  
But you not for me

When everyone's living  
I know where you'll be

If I should listen to your proposal  
Put my future at your disposal

Promise me you'll keep yourself clean  
Cut yourself from your mid-day dream.

If I could wake you  
A moment I would  
Share you my lifeline  
Feed you some good  
If I could wake you  
A moment I would  
Share you my lifeline and  
Feed you some good
