## Madonna, Has To Be

Breathe in, breathe out I say a little prayer How the gods above Could be so unfair

[Chorus:]

I know there's someone out there Waiting for me There must be someone out there There just has to be

Go on, go on Don't sit there like a fool You've graduated from A different kind of school

[chorus, repeat]

I should be glad that I'm alive It could have been much worse I might have never loved at all And never known what I am worth

How the gods above Could be so unfair

[chorus, repeat]
