

# Madrigal, Languish

bewailing my memories  
my death is all that i claim  
nothing could fill my inanity  
my opaque apathy bleeds...

afraid of this slow decay  
you see me fading away...

befog my mind  
stay by my side  
please don't leave me here  
please don't leave me...

attached to this gloom i see  
raping myself to be free...

befog my mind  
stay by my side  
please don't leave me here  
please don't leave me...

befog my mind  
stay by my side  
please don't leave me here  
please don't leave me...  
crush all my faith  
sorrow turns to hate  
please don't leave me here  
please don't save my life...
