

# Madrugada, Our Time Won

Don't know when they put me in the ground  
I don't know if I was left alone  
All the matters that I follow you  
On my way to the unknown bound.

It's cold baby but I'm not afraid  
I feel lost my life swept away  
I've been worried but I promised you  
It's so tense when you're in the life

Only time that you walked away  
It was me, I'm always here and I'm gonna stay  
Lovin' you can not be bad  
My blood is boiling and you make me mad

I was flying but it was very low  
You let your lovin' coming down  
And all I thought it was just another dome  
Couldn't be right what I found

A mountain top, it's the need of time  
I'm out of my mind so let's make this night  
On my own every thing is wrong  
Holding on now, I'm holding on.

You just have to call it out.  
You know your love until your love is gone  
And you know that it, that it's that strong

Only time that you let me down  
You just wouldn't let me in  
It's only time when it all went bad  
I don't wanna fight with you

Don't you know why I do  
I will never ever let you go  
I will stay with you till I die

If my blood runs cold I don't wanna know  
I'm gonna cry all night long  
I wear your heart until my heart is torn  
Then I make up, make up my mind.

When all is gone we just stop below  
Where we go when we just gotta blow  
Everything that we got in here  
Don't wanna see you walking down the stairs

Cause I need you and you know you need me  
It's all that love that you let down on me  
Hold me tight and I love you right.  
I love you, I'll be there, baby, baby mine

Honey, our time won't live that long

You know our time won't live that long

You know our time won't live that long
