

Madrugada, Step Into This Room And Dance For

Closer, move in closer
Closer now than, than ever before
I doubt it that you can survive
So far from your trenches and your friends
This is where competition starts
and all of that ends

I sense a lot of tension
Loose, loose
Pull out your arsenal
Dance

(Chorus)
Step into this room and dance for me

By now we should know the music and the steps
I never asked, I never set you up
A little something for me?
A little something thrown back at me?

This is the floor, these are the rules, these are the moves
This is the room in which we dance
Close the door, say you will dance

(Chorus)
