

# Madvillain, Peeyano Keys

(MF Doom)

never really matterd to much to me  
that I was just too damn old to mc  
all that really matters is if your rhymes was ill  
girl,that's what really mattered to me

Looks like it's gonna be a great day today  
to get me some fresh air, like a stray on a straight away  
hey you got a light, na whut light? early in the morning  
face crud from like a mudfight,looka here  
it's just the way the cookie tear, prepared to get hurt  
and mangle like her angle, rookie year  
the rocket scientist, with the pocket windless  
some even say he might need some pussachiatrist  
dude, are you pondering what I'm pondering?  
yes, so why would the darn thing be wondering  
She's like a foundling, barely worth fondling  
her posse's on grow like hey momma I want to sing  
mad laced, the bass like erased cards, villain on the case  
to break jaws and leave her face scarred  
groovy dude, not to proove to be rude  
but this stuff is like what you might put on movietune  
what is hollapinas, get it like a woofer  
when ya holla at your seniors  
dial Kareem over here, the hasj he's feeling?  
he just came from over there, the grass is greener  
last wish? I wish I had two more wishes  
and I wished they fixed the door to the matrix  
it's mad glaciers, spit so many verses  
sometime my george twitches  
one thing this party could use is  
more .....uhmuhm booz  
put yourself in your own shoes  
and stay away from all the peers  
that bust you tipsy, don't use  
he only keep 'em to decorate  
if you wanna peep 'em, select a date  
and bring a deep check like checkmate  
I kid you not, on the dotted line sign  
eversince a minor  
kids consider him some kinda Einstein  
on the diamond mind grine, she was dumb find  
but not quite the type that you might wanna wind and dine  
couldn't find a pen, had to pick up a new trick  
"This one he wrote in cold blood with a toothpick"  
on second thought ,it's too thick  
his assistents said: doom, you're sick  
He said : it's true, threw a goosystick  
psycho, his flow is drowned and now we're seasoning  
with micropower that's sounding quite reasoning  
it's easy as pie, greet one, one fall  
one more, one false move and they dumbfall
