

Magdalena Tul, I am who I am

I'm driving this car
You're passenger
Stop telling me when
I should go back

Look at yourself don't get me wrong
Who gave you right to judge me so
implicitly

Biznes is mine while i'm on board
I decide on the next effort
Bout' everything

Ref 1:
Let me go my way
Come on let me be 2x

Let me live my life
Come on let me be 2x

2.
Im just who i am
Don't look at me
Like I'm someone else
Please don't compare
I'm independent totaly

I am the writher of this song
You can be one to go along
In my symthony

It doesnt matter what you do
Earth doesn't stop because of you
So let me be me

Ref 1...

Bridge:
I don't need permition's word
For every step I'll take
Don't limit , criticize
I am just who i am

Ref 2:
Let me go my way
Don't need permition (word)
Every step I'll take

So let me be me

Let me live my life
Don't limit , criticize
I'm who i am

So let me be me
