

Magdalena Tul, Make Me Believe

I've been thinking about you all day
Tryin' to silence my longing for you
Turn down the lights
It's one of those nights
Those things you're doing it's just right on track

Feel your fingertips on my neck
flashing that love making-move - look in your eyes
Now here I go - losing control
Ripping your shirt dragging my nails down your back

Baby the night's still young
Two of us one on one
Tangled and twisted - yeah I'm addicted - begging you please
Lost in a world unknown
Broken and on my own
I'd all but given up - never finding love - now look at us
I'm down on my knees
Baby you make me believe

God knows I've hit behind a wall
Building this barricade of doubt - brick by brick
You came around - knocking it down
Turnin' my key, climbing inside with your kiss

Baby the night's still young
Two of us one on one
Tangled and twisted - yeah I'm addicted - begging you please
Lost in a world unknown - broken and on my own
I'd all but given up - never finding love - now look at us
I'm down on my knees
Baby you make me believe

Lost in a world unknown
Broken and on my own
I'd all but given up - never finding love - now look at us
I'm down on my knees
Baby you make me believe
I'd all but given up - never finding love - now look at us
I'm down on my knees
Baby you make me believe
