

Maggie Reilly, Little Boy's Eyes (Fionn's Song)

There's something in the air tonight
A feeling all around me
The glimmer of a distant light
A star to guide me

I don't believe it, it can't be true
Halfway up to heaven
I put my faith and my trust in you
Don't let me down

You smile and like a rainbow
Everything's bright in my little girl life
Your laughter makes my heart glow
You make me cry with those little boy's eyes

I didn't know the time was right
You came along and moved me
Now everything is here tonight
The way you love me

Don't believe it, it can't be true
I'm halfway up to heaven
I've put my faith and my hope in you
Don't let me fall

You smile and like a rainbow
Everything's bright in my little girl life
Your laughter makes my heart glow
You make me cry with those little boy's eyes

Never go too far away
Stay here beside me
And with your gentle loving ways
Don't ever leave me

You smile and like a rainbow
Everything's bright in my little girl life
Your laughter makes my heart glow
You make me cry with those little boy's eyes

You smile and like a rainbow
Everything's bright in my little girl life
Your laughter makes my heart glow
You make me cry with those little boy's eyes

You make me cry with those little boy's eyes
