## Maggie Reilly, Little Boy's Eyes (Fionn's Song)

There's something in the air tonight A feeling all around me The glimmer of a distant light A star to guide me

I don't believe it, it can't be true Halfway up to heaven I put my faith and my trust in you Don't let me down

You smile and like a rainbow Everything's bright in my little girl life Your laughter makes my heart glow You make me cry with those little boy's eyes

I didn't know the time was right You came along and moved me Now everything is here tonight The way you love me

Don't believe it, it can't be true I'm halfway up to heaven I've put my faith and my hope in you Don't let me fall

You smile and like a rainbow Everything's bright in my little girl life Your laughter makes my heart glow You make me cry with those little boy's eyes

Never go too far away Stay here beside me And with your gentle loving ways Don't ever leave me

You smile and like a rainbow Everything's bright in my little girl life Your laughter makes my heart glow You make me cry with those little boy's eyes

You smile and like a rainbow Everything's bright in my little girl life Your laughter makes my heart glow You make me cry with those little boy's eyes

You make me cry with those little boy's eyes
