

# Maggie Rogers, That's Where I Am

I found a reason to wake up  
Coffee in my cup  
Start a new day  
Wish we could do this forever  
And never remember  
Mistakes that we made

I told you I loved you.  
When we were just friends  
You kept me waiting  
And I hated you then  
Gave it a few years  
You settled your debts  
But I never got over the secrets I kept

It all works out in the end  
Wherever you go  
That's where I am  
Boulders turn into sand  
Wherever you go  
That's where I am

Now when I wait in your doorway  
Covered in flowers  
I think of her  
The woman that you once dated  
I couldn't relate to  
Her glitter and furs

Who were you then  
And who is she now  
Did she know that we were  
Together somehow  
You never touched me  
But I felt you everywhere

It all works out in the end  
Wherever you go  
That's where I am  
Even boulders turn into sand  
Wherever you go  
That's where I am

No I'll never find another  
No one else can do it better  
When we're together it feels like heaven  
You're the only one I ever wanted  
All I ever really wanted was you

No I'll never find another  
No one else can do it better  
When we're together it feels like heaven  
You're the only one I ever wanted  
All I ever really wanted was you

It all works out in the end  
Wherever you go  
That's where I am  
Even boulders turn into sand  
Wherever you go  
That's where I am

You're the only one I ever wanted  
All I ever really wanted was you

That's where I am

You're the only one I ever wanted  
All I ever really wanted was you

That's where I am

You're the only one I ever wanted  
All I ever really wanted was you

That's where I am
