

Magic Affair, In The Middle Of The Night

In the middle of the night
A vision brings me light
Time is on my side
All the way
In the middle of the night
A vision's shining bright
Should I go or should I stay ?
Show me the right way

Sweat pours down as I toss and turn
While the dreams of reality starts to burn
I see the vision of a prophet dressed in black
When it spoke, the voice brought me back
Woke up, and my hands are shaking,
A rude awakening, but still I'm waiting
For the picture to be real, or just a joke
Then, boom ! My room filled with smoke
Surprise, the shadows came again
Then the figure said "You have sinned"
As the message clicks, I'm not a "geto boy", but minds play tricks
A scenario that carries you
Below to the depth of hell, that I've been through
In the middle of the night, I'll find your strength
Choose a path and a lyrical wavelenght

Positive and negative is what I'm facin'
I'm out of breath like I just finished racin'
Then a light comes through to let me know
Which path to tack, and which way to go
I'm knowin', flowin', trhowin', goin' crazy
Once again, yo ! You can't faze me
I'm going alpha, not omega
Right now, not later against evil behaviour
Trip down under, is what I provide 'em
Sanity's gone, mind asylum
Then the voice comes back but brutal
Take good and evil and make it neutral
Taken out comp, evil lies and walk beats
Taking out punks, but still to say the least
The job is done, and still I have the strength
For a night in a lyrical wavelenght
