

# Magic Dirt, Touch That Space

Now that you're free  
Don't look at me  
I'm just holding my head  
Before I cracked up  
and when you said  
It was the voice in your head  
I stood up  
On a hundred story  
High rise  
Before I crack up

I just wanna (3X)  
Just run away now  
And when you drive  
Longer than you live  
I'll stick to your windscreen  
I'll let out a big scream  
You should get out your instinct  
Tell everyone that they stink  
Before I chow down  
Before I get up  
Before I chuck a fit  
Before I burn your lip

I just wanna (3X)  
Just run away now

(spoken)  
And when you drive  
Longer than you live  
I'll stick to your windscreen  
I'll let out a big scream  
You should get out your instinct  
Tell everyone that they stink  
Before I chow down  
Before I get up  
Before I chuck a fit  
Before I burn your lip

I just wanna (3X)  
Just run away now
