

MAGIC!, Don't Kill the Magic

If you want space (you could have it)
If you want change (you could have it)
Sleep on your bed (you could have it)
Pull it to my head (you could have it)

If you want love! (you could have it)
The way that you love (you could have it)
If you want time (you could have it)
I'll tell you no lie (you could have it)

Just don't kill, don't kill the magic
Just don't kill, don't kill the magic
I'm not ready to give up just yet
We could stay until we both forget
So baby, don't kill, (don't kill) don't kill the magic

If you want space (you could have it)
If you want change (I'll make it drastic)
Sleep on your bed (I'll be your mattress)
Pull it to my head (you could blast it)

Ohh! If you want love! (I'll be tragic)
The way that you love (I can match it)
If you want time (I'll be elastic)
Tell you no lie (You can have it)
No lie

Just don't kill, don't kill the magic
Just don't kill, don't kill the magic
I'm not ready to give up just yet
We could stay until we both forget
So baby, don't kill, (don't kill) don't kill the magic

Take my arms, take my legs, take my vision
Take my tongue, take my lungs, if you need it
Hold my knees, hold my knees, hold my knees, I beg
Hey

You know I said I'm trying fix this baby
Let me be in my heart god's pleasure
I will do, I will do anything instead

Just don't kill, don't kill the magic
Just don't kill, don't kill the magic
I'm not ready to give up just yet
We could stay until we both forget
So baby, don't kill, (don't kill) don't kill the magic
You could have it?you could have it?
You could have it?you could have it?
You could have it?you could have it?
