

# MAGIC!, Red Dress

She tried on everything  
Every little thing inside her closet  
And she knows it's getting late  
Knows that I been waiting and I'm starving  
Coz we've been working overtime  
She wants to make a night that we'll remember  
And I'm staring at the time  
Thinking it's alright  
Put on whatever!

But I've been on my best behavior  
Pacing back and forth  
And 10000 lifetimes later  
When she walks through the door

I said: "Hey, you with red dress on  
I gotta find a way to take it off"  
I got a lot of love and it's growing strong  
When I see you with red dress on  
with the red dress  
with the red dress

It's hard to concentrate  
"Finish up you plate" – she whispers to me  
But I got one thing on my mind  
As they pour the wine and it consumes me

But I've been on my best behavior  
Pacing back and forth  
And 10000 lifetimes later  
When she walks through the door

I said: Hey, you with red dress on  
I gotta find a way to take it off  
I got a lot of love and it's growing strong  
When I see you with red dress on  
with the red dress  
with the red dress

Hey, you with red dress on  
I said: "Hey, you with red dress o"

I said: "Hey, you with red dress on  
I gotta find a way to take it off"  
I got a lot of love and it's growing strong  
When I see you with red dress on  
with the red dress  
with the red dress
