

Magnapop, Nowhere

This club is so nowhere
That's why I like the city air
It wreaks and refines
And don't believe it

But you can't stop it
From falling on your head
Maybe learn to take it

You can't stop it
From falling on your head
Maybe learn to take it

This ??? altitude
It's nauseating and it's rude
It wreaks and refines
And don't believe it

And you can't stop it
From falling on your head
Maybe learn to take it

You can't stop it
From falling on your head
Maybe learn to take it

You can't stop it x4

We're going out tonight
To see the sky
Get really high
It wreaks real and refines
And don't believe it

But you can't stop it
From falling on your head
Maybe learn to take it

You can't stop it
From falling on your head
Maybe learn to take it
