

Magnapop, Voice Without A Sound

Who are you to me
No one who can mirror me
Testing me today
Cruel and twisted in every way
You can't f**k with me
Thinking you know and you will never see
Stealing what you need
You'll never get it from me
A voice without a sound
Just a matter of time and you'll be figured out
I will cut you out
I will cut you
I will cut you out
Venting? what you see
I know you can't hide from me
You might impress a few
But you're too smart to know that wouldn't do you good
You can't f**k with me
Thinking you know and you will never see
Stealing what you need
You'll never get it from me
A voice without a sound
Just a matter of time and you'll be figured out
I will cut you out
I will cut you
'cause I can cut you out
A voice without a sound
Just a matter of time and you'll be figured out
I will cut you out
Yeah I'll cut you out
