

# Magnetic Clouds, Push Play

We met by a chance  
Then had a romance  
Maybe something more  
Now I'm always here  
Though not always near  
Not like days before

Poems and letters  
Aren't enough these days  
I know you just need a display  
Distant and missing  
And not where I should be  
I know you think of me but hey!

So when you're alone  
Or when you feel gray  
Push play  
And when you still roam  
Or you lose your way  
Push play  
Push and I'll be there for you  
And I'll be there for you  
And I'll be there for you  
And stay

The closer we are  
The more we feel far  
So we need some space?  
The longer we wait  
The more it feels great  
So we need some time?

Poems and letters  
Aren't enough these days  
I know you just need a display  
Distant and missing  
And not where I should be  
I know you think of me but hey!

So when you're alone  
Or when you feel gray  
Push play  
And when you still roam  
Or you lose your way  
Push play  
Push and I'll be there for you  
And I'll be there for you  
And I'll be there for you  
And stay

So when you're in need  
And during the night or day  
You'll get what you want  
'Cos I am still here - push play

So when you're alone  
Or when you feel gray  
Push play  
And when you still roam  
Or you lose your way  
Push play  
Push and I'll be there for you  
And I'll be there for you  
And I'll be there for you

And stay
