

# Magnitude 9, Mind Over Fear

Looking on to the road of forever  
finding my place along the way  
longing to discover the places in my mind  
trying to reach within my soul  
and along the way I've discovered  
the days I'm here are numbered  
trying to climb out of the hole

Everyone's in a race against the hands of time  
now the time is at hand for us all  
to face the truth on our own

Hearing the words, as we try to remember  
a dream that was lost along the way

Longing to recover the memories of our mind  
Trying to reach a common goal  
and along the way they'll discover  
the days they're here are numbered  
trying to fight out of the hole

Everyone's in a race against the hands of time  
Now the time is at hand for us all

Now I'm standing here to face the world alone  
and I'm running out of time  
and I'm seeing clear, the way that I must go  
and I fear that I won't, and I fear that I don't know the way

(solo)

Mind over fear, take a trip into your mind, into the unknown  
Mind over fear, take a trip into your mind, into the unknown

Now I'm standing here to face the world alone  
and I'm running out of time  
and I'm seeing clear, the way that I must go  
in the race of mankind  
now I standing here to face the world alone  
and I'm running out of time  
and I fear that I won't  
and I fear that I don't know the way

(solo/break)

Mind over fear  
Take a trip into your mind, into the unknown  
mind over fear  
to a place where you will find, into the unknown  
mind over fear  
take a trip into your mind, into the unknown  
mind over fear  
to a place where you will find, into the unknown
