Magno ya heard, get some'ing off my chest

(Magno)

I'm dropping straight in, no time for a foul hook  
Take a sneak peak at a truth, all you laws look  
Need mo' intellect homie, go try a book  
This ain't bad remember, I'm a retired crook  
I came a long way, from days of Soundclicking  
Sorta remind me, when MJ found Pippen  
But I vividly remember, when H-Town was tripping  
It was mixed emotions, I switched the notion  
Two years later, they say I'm slick as lotion  
Now critics, on my dick and choking  
Cause other niggaz piece is watered down, take a piss in ocean  
And we don't understand the shit they quoting, (what kinda sticks they smoking)  
All I know, they took a loss letting the rookie loose  
And I done learned a lot, from that house with the crooked roots  
That was college, better yet a university  
I flunked off, but nobody can bring a hotter verse than me  
Go figure, so much for irony  
Fast forward eight months, and now the majors eyeing me  
I ain't capping, or being fly dog  
But they trust me, like blind folk do seeing-eye dogs  
And hey I don't blame em, cause I'm CNY dog  
It's finna be caviar, instead of eating hot dogs  
And I'm bout ready, to make that switch  
Give me a track, I'll make that hit  
Waiting on my time to blow, has been like waiting on the metro  
Dudes I hit the stop with, is gone to they destination  
I remain patient, chilling while the rest is hating  
Knowing damn well, I'm the hardest thang next to pavement  
Right now, I'm the talk of the town  
I'm like Sprite, watching Sierra Mist walking around  
Cause it's a lot of niggaz, out trying to clone me  
But ery'body know, who's the phony homie
