

Magnolia, It's all vain

Say you never even wonder why your calling out my name
You never showed a star
now you tell me what to do
Say you never even wonder, why you're driving me insane
When nightstar's falling, there's no break of dawn.
you fall and I rise
just a little wonder
you and I, you and I, it's all so vain
I fall and you rise
just a little wonder, you and I, you and I, feel so vain
I fall and I rise
with a little wonder
you and i, you and i, crawling to still survive
You fall and You rise,
with a little wonder
you and i, you and i, no need to say goodbye...
Say you never even wonder why your calling out my name
You never showed a star
now you tell me what to do
Say you never even wonder, why you're driving me insane
When nightstar's falling, there's no break of dawn
you fall and I rise
just a little wonder
you and I, you and I, it's all so vain
you fall and you rise
with a little wonder
you and i, you and i, no need to say goodbye.
I fall and I rise
with a little wonder
you and i, you and i, crawling to still survive
You fall and You rise,
with a little wonder
you and i, you and i, no need to say goodbye
you fall and I rise
just a little wonder
you and I, you and I, it's all so vain
I fall and you rise
just a little wonder, you and I, you and I, feel so vain
