Magnum, Find The Time

If everything's alright You've got to be in a dream To stay with me all night Don't mean a thing, it seems

Find the time - only for me Find the time - only for me

It could be so easy It's nothing to take a chance Well, I know you could leave me Give me no second glance

Find the time - only for me Find the time - only for me

It's just about now it gets me so bad Well, life is so short, should it be so sad? I've seen it lots of times before Looks like it's happening once more

Find the time - only for me Find the time - only for me

If everything's all right You've got to be in a dream To stay with me all night Don't mean a thing, it seems

It could be so easy It's nothing to take a chance Well, I know you could leave me Give me no second glance

Find the time - only for me Find the time - only for me
