

Magnum, Like Brothers We Stand

I never shot no one
You're not my enemy
'Cause I'm a peaceful man
Live till eternity

I'd never steal from you
No one can own this place
My God is strong and true
He'll never fall from grace

We died for this land, so pray for us all
We're pictures in sand, they're closing the door
Hearts have been bled and crashed to the floor
Like brothers we stand, they've fooled us once more

How can you feel at ease?
Look at the things you've done?
You always will deceive
But then your day will come

We died for this land, so pray for us all
We're pictures in sand, they're closing the door
Hearts have been bled and crashed to the floor
Like brothers we stand, they've fooled us once more

The future was planned and now we must crawl
Let justice be damned, they've taken it all
Now things that you read, you've seen it before
Like brothers we stand, they've fooled us once more

They came from a place that's so different
To teach us it all
We welcomed and gave no resistance
But then came the fall
They didn't realise they were strangers
How could they think so small?
