

# Magnum, Pray For The Day

Pray for the day, this city's wall  
Concrete for chains, will crumble and fall, pray for the day  
On top of the world, nothing breaks in  
Cross after cross, they have to dig in, where to begin

Remember at the border  
Where the blood ran like water  
Murdered for escaping  
While the world looked on shaking

On top of the world, nothing breaks in  
Cross after cross, they have to dig in, where to begin  
And they crowned you with pain and emptied your head  
Your rescuers came and left you for dead, now it has to be said

Remember at the border  
Where the blood ran like water  
Murdered for escaping  
While the world looked on shaking

And all across that land...  
Keys of freedom jammed...

Remember at the border  
Where the blood ran like water  
Murdered for escaping  
While the world looked on shaking

Pray for the day, this city's wall  
Concrete for chains, will crumble and fall  
Pray for the day
