

Magnum, Stormy Weather

The rain beats on my window
And the moon lights up the dark
It starts the shadows chasing
And the dogs out on the run begin to bark

The church bell's striking midnight
And the lights have all gone down
The sea's as dark as thunder
I feel like wanted a man on sacred ground

Now the wind cries out, it's taking you away
But there's nothing I can do

Passing ships into the night
We can't stay together
I won't win but I can fight
Looks like we're in for stormy weather
Forever and ever, forever and ever

Taillights on the highway
They disappear from view
Well, I look, but I don't see you coming my way
Now I've lost it all, it seems I'm losing you

Now the wind cries out, it's taking you away
But there's nothing I can do

There's a fog down on the beach
It rolls on forever
You get further out of reach
Looks like we're in for stormy weather

Passing ships into the night
We can't stay together
I won't win but I can fight
Looks like we're in for stormy weather
Stormy weather tonight
