

Magnum, That Holy Touch

Gotta get myself on my feet again
I'm on borrowed time and I don't know when
There's someone now in the world tonight
Getting kicked around, everlasting fight

I'm just a stray on this broken down highway
In this great divide, there's no truth and no lies
I'll learn that dance, take up natural healing
Going to take my chance, magic carpet and fly
Break these hands of vengeance, need that holy touch
'Cause I'm just a stray on this lonely highway

Justice won't be done, better stay alive
Well, maybe some regrets will help you to survive
When you look for love and the best you found
Makes the price too high, couldn't make you proud

I'm just a stray on this broken down highway
In this great divide, there's no truth and no lies
I'll learn that dance, take up natural healing
Going to take my chance, magic carpet and fly
Break these hands of vengeance, need that holy touch
'Cause I'm just a stray on this broken down highway

In this great divide, there's no truth and no lies
I'll learn that dance, take up natural healing
Going to take my chance, magic carpet and fly
Break these hands of vengeance, need that holy touch
'Cause I'm just a stray on this lonely highway
