

# Magnus Carlson, Christmas Time

You should know  
What December will bring  
It's not the first time for you  
Look around  
See the snow falling down  
It's not the first time for you

Then the sky turns white  
And shine so bright  
Then you remember it all

It is coming your way  
This time every year  
When it's snowing your way  
Then Christmas is here  
It's a wonderful time  
I see in your eyes  
That you know it's Christmas time

So it goes  
Every time of the year  
Then suddenly it is here  
Come to me  
When I light up the tree  
Setting the right atmosphere

When the sky turns white  
And shine so bright  
Then you remember it all

It is coming your way  
This time every year  
When it's snowing your way  
Then Christmas is here  
It's a wonderful time  
I see in your eyes  
That you know it's Christmas time

Do you believe it's true  
When Christmas hits you too  
And I will be there for you  
Oh I will be there for you

It is coming your way  
This time every year  
When it's snowing your way  
Then Christmas is here  
It's a wonderful time  
I see in your eyes  
That you know it's Christmas time
