

Magnus Carlsson, Christmas Time

You should know
What December will bring
Its not the first time for you
Look around
See the snow falling down
Its not the first time for you
Then the sky turns white
And shine so bright
Then you remember it all
It is coming your way
This time every year
When its snowing your way
Then Christmas is here
Its a wonderful time
I see in your eyes
That you know its Christmas time
So it goes
Every time of the year
Then suddenly it is here
Come to me
When I light up the tree
Setting the right atmosphere
When the sky turns white
And shine so bright
Then you remember it all
It is coming your way
This time every year
When its snowing your way
Then Christmas is here
Its a wonderful time
I see in your eyes
That you know its Christmas time
Do you believe its true
When Christmas hits you too
And I will be there for you
Oh I will be there for you
It is coming your way
This time every year
When its snowing your way
Then Christmas is here
Its a wonderful time
I see in your eyes
That you know its Christmas time
