

Mahalia, Terms And Condition

If you want my love
Then let's discuss
The man you're required to be
If you tell me lies
You get three strikes
There's no coming back, boy please
If you look at her
Consider bridges burned
You could call it petty but see
If you want the position
These are my terms and conditions, yeah yeah yeah

Hey, hello, hi
How you doing boy?
Yeah I'm doing fine
Said you wanna be something in my life
Baby are you sure you wanna cross that line?
My girls gotta vet it
There's rules in place
If you don't wanna play the games
Then you don't get to stay
My head is where my heart is
My heart is somewhere safe

This is how it has to be
Look at what they did to me
None of those late nights crying alone bout you like that (like that)
Exit strategy plan, I ain't afraid to use and that's facts (that's facts)
I ain't afraid to lose you, that's that

If you want my love
Then let's discuss
The man you're required to be
If you tell me lies
You get three strikes
There's no coming back, boy please
If you look at her
Consider bridges burned
You could call it petty but see
If you want the position
These are my terms and conditions, yeah yeah

Fuck around if you wanna see a magic trick
One second I'm here then poof I'm gone
You can think about it on the last train home
Rest assured I ain't pressed, I ain't stressed about it
Matter of fact I'm in a dress about it
Ice cold with the step cuz I iced you out of it
You're walking away and I like the sound of it

This is how it has to be
Look at what they did to me
None of those late nights crying alone bout you like that (like that)
Exit strategy plan I ain't afraid to use and that's facts
I ain't afraid to lose you, that's that
