

Maire Brennan, Where I Stand

Fear not the stillness
Will a gentle voice
Guide me out side this frame
Sweep stars around us
Now the flowerless trees
Blooming carefree

Wonderful days
Wonderful life
Wonderful life with love

Faded rain
From where I stand
A wasted life I had on my hands
Down the scented ways I did stray
But I'm weak
Don't let me go
I found you love
Inside my heart
When my world was falling apart
Your golden breath
Took darkness away
If I ask You won't let me go

Light me a candle
Will the flicker grow
Reach me within my soul
Sweet streams are melting
No more broken games
Now for me to play

Wonderful ways
Wonderful life
Wonderful life with love

Faded rain
From where I stand
A wasted life I had on my hands
Down the scented ways I did stray
But I'm weak
Don't let me go
I found your love
Inside my heart
When my world was falling apart
Your golden breath
Took darkness away
If I ask You won't let me go

Faded rain
From where I stand
A wasted life I had on my hands
Down the scented ways I did stray
But I'm weak
Don't let me go
I found your love
Inside my heart
When my world was falling apart
Your golden breath
Took darkness away
If I ask You won't let me go
