

# Maja Hyży, Never Hide (piosenka na EUROWIZJ)

You wanna hide  
You wanna stay behind the wall  
You wanna wait until the storm  
Stops raining on your road, I know  
I try to hide  
The pain of every knife  
The pain of every night  
I'm done tonight

I feel every broken bone  
Every broken promise, every single stone  
Today thrown... my spirit  
You, that love inside you .. to start again  
Don't you know, don't you know, don't you know

Never, never hide behind the wall  
You gotta give it all  
Never, never hide what's in your soul  
Don't put your light away  
You got a lot of .. to give  
Stories to be told, a legacy to live  
.. still the future can be bright  
Never lose your hope and never ever hide

Don't wanna ..  
My voice to songs that make me cry  
Same old lies, old lies, I've played them on repeat  
Now I realise, now I read the signs  
And all I had is calling me to go

..  
Now I'm dancing to ..  
Gotta go, don't make me stay  
Don't you know today's the day..  
When I wake up to be  
The one who lives the dream  
I'm free to go, I feel it in my bones

I feel every broken bone  
Every broken promise, every single stone  
Today thrown .. my spirit  
You, that love inside you .. to start again  
Don't you know, don't you know, don't you know

Never, never hide behind the wall  
You gotta give it all  
Never, never hide what's in your soul  
Don't put your light away  
You got a lot of .. to give  
Stories to be told, a legacy to live  
.. still the future can be bright  
Never lose your hope and never ever hide
