

# Majesty, Knights of the Empire

They came randomly to pillage  
They burned down our home, our village  
Ten years old, I had to see my people die  
I was lying broke and lonely  
So they left me to die slowly  
But days later I was found by a proud knight

He took me home to an old fortress  
His wife gave me food and hostage  
He was leading the defenders of our land  
They're called the knights of the empire  
And they gave me new desire  
Trained me to become a member of their clan

And now I am strong, I'm defending our home by my hand  
Forever a part, with true pride in my heart I will stand

Knights of the Empire  
Knights of the Empire  
I'm hearing the call to march 'till I fall  
I am, and I say that with pride, an empire's knight

On the path of sublime virtue  
I am bound to keep it true  
I will hunt down all the enemies I find  
Seek revenge for my own people  
Transform culprits into creeples  
For the empire I ride into the night

With my brothers in a union  
We are members of a proud clan  
All together, one for all and all for one  
When it's dark and wolves are howling  
We're the light that cleans the fouling  
When the sign is in the sky our time has come

Yes, I am strong, I'm defending our home by my hand  
Forever a part, with true pride in my heart I will stand

Knights of the Empire  
Knights of the Empire  
I'm hearing the call to march 'till I fall  
I am, and I say that with pride, an empire's knight

High on the mountains, observing our land  
I see the enemies falling  
I'm wielding my sword when I hear thy command  
Whenever the empire's calling

Knights of the Empire  
Knights of the Empire  
I'm hearing the call to march 'till I fall  
I am, and I say that with pride, an empire's knight
