

# Majesty, We Are Legends

And there was fire, fire in the sky  
And there was thunder, when we yelled our rebel cry  
We have restored the order, brought justice to the land

And now we're free, yeah we are free  
And there was silence, when we spoke the words of fate  
After explosions we pulverized all hate  
Our mission is eternal, our duty never ends  
Our destiny, our destiny

We rule the night  
No more we hide  
Fulfilling the legacy  
Forever free  
We're standing as one  
Rebellious descendants  
We are legends  
Oh oh oh oh  
Come sing along  
This is our song  
Yeah, now we are family  
On burning ground  
We're screaming out loud  
By natural ascendance  
We are legends  
Oh oh oh oh

There was destruction and all the lights went out  
Then there was darkness, all power just went down  
So we have lit a fire, illuminate the night  
It will go on, our life goes on  
And there were builders to craft a better earth  
Mighty creators, we set the freedom course  
A spark can light a fire, so what we want is right  
This is our home, our rebuild home

And there was fire  
And there was thunder  
The new freedom legions  
We are legends
