

# Major Deluxe, She

Sometimes if I do the knife between the fingers  
Strange ideas come in that moment  
I've so often tried to make them scared for her  
I can easy feel their angst all around

R. / But my wife, she is a hero  
R. / I'll never do what she did a million times before

Then I think I do the most common work  
I throw the blades towards infinity  
I understand, it's very simple  
In a glance the whole scene can take a tragic turn

R. / But my wife, she is a hero  
R. / I'll never do what she did a million times before  
And today strange ideas get closer  
A slow motion is cast on the ring  
I can't move anymore, I've forgotten how to  
Everything happens at once  
I close my eyes, it strikes, it's over

R. / And my wife, she was a hero  
R. / I was too scared to stand there  
R. / I would never do what she did a few times before
