

Major Lazer, Be Together (feat. Wild Belle)

Let me escape in your arms
Baby I'm yours /2x
Love don't come easy at all
I miss you so much /2x

Tell me, is this freedom, baby?
Chasing after danger, making my heart race,

Maybe if the stars align, maybe if our worlds collide
Maybe on the dark side we could be together, be together
Maybe in a million miles on a highway through the stars
Someday soon we will be together

He was a dreamer at heart
Chasing the stars /2x
Wings spread to the Sun
I miss you so much /2x

Tell me, is this freedom, baby?
Chasing after danger, making my heart break,

Maybe if the stars align, maybe if our worlds collide
Maybe on the dark side we could be together, be together
Maybe in a million miles on a highway through the stars
Someday soon we will be together

We will be together /8x

Maybe if the stars align, maybe if our worlds collide
Maybe on the dark side we could be together, be together
Maybe in a million miles on a highway through the stars
Someday soon we will be together
/2x
