

Make It Pop, Light It Up

Let's light it up
Let's see it all around us
We're one and all
The fire's gonna guide us

Look at the sky
We gonna make it shine so bright ooo
Get ready now, It's time to put your cellies high

I wanna feel it (whoa)
Light it up, Light it up
Cause I wanna see it (whoa)
Light it up, Light it up
Light it up for love
Light it up, light it up
Light it up for love
Just light it up, light it up

Now do you feel the love
Tonight it's all around us
We're here tonight
And no one's gonna stop us (whoa)

Look at the sky
I've never seen it shine so bright, oh
You're ready now
Cause Tonight we're gonna,
get fired up, let's light it up
I wanna

I wanna feel it (whoa)
Light it up, Light it up
Cause I wanna see it (whoa)
Light it up, Light it up
Light it up for love
Light it up, light it up
Light it up for love
Just light it up, light it up

I wanna feel it
Cause I wanna see it
Light it up, light it up
Light it up, light it up

Light it up for love
