

Makeshift Romeo, Dream

Am I awake or is this a dream
Cause everything ain't what it seems
Everytime I turn around to see
That somethings chasing me

If you could see inside my head
All the thoughts, they turn to red
And nothing's what it seems
So don't let me fall this way

In all my dreams
I can do what's real
(Confused on how I feel)
Things aren't what
They seem to be
(And I can't seem to
Get back to reality)

How can it be?
I don't think so
I got away out of control
Everything I thought I
Knew was sold out
Everything I knew
Nothing about

Is this real or make believe?
Am flesh or fantasy
All these thoughts inside my dreams
So don't let me fall asleep

In all my dreams
I can do what's real
(Confused on how I feel)
Things aren't what
They seem to be
(And I can't seem to
Get back to reality)

In all my dreams
I can do what's real
(Confused on how I feel)
Things aren't what
They seem to be
(And I can't seem to
Get back to reality)

-Solo-

In all my dreams
I can do what's real
(Confused on how I feel)
Things aren't what
They seem to be
(And I can't seem to
Get back to reality)

In all my dreams
I can do what's real
(Confused on how I feel)
Things aren't what
They seem to be
(And I can't seem to
Get back to reality)
