

Making April, Safe But Sorry

picked up some rocks right off your street
that i could throw at your window, wake you from your sleep
come down the stairs and out your door
and you know just what i came here for
we'll find a place we can hide
we'll set all of our cares and clothes aside
blood races under your skin
and with my hands just right you'll let me in
we're tangled up from my head to your toes
if it's the love you love, then why let go?
but if you have to decide
well could you maybe wait till we get inside?
(say something sweet cause all we have is
a night we can't keep and can't get back
and it's falling out from underneath our feet
the lights on the street they set our stage
and you're gonna have to face the plans you made
and they're falling through and onto you and me
you'll be safe but sorry)
i know your dreams and you know i care
but if you leave me here we can't meet there
caught in between our separate roads
but aren't you curious to find where this one goes?
how could you ever pretend?
when it doesn't feel a damn thing like the end
[chorus]
safe from anything that you might feel
safe from anything that's just too real
safe from anything i'd do
but sorry that you said it's through
[chorus]
you'll be safe but sorry, safe but sorry
whoa oh whoa oh
you'll be safe but sorry, you'll be safe but sorry.
ba ba da da, ba ba da, ba da da, da da da
ba ba da da, ba ba da, ba da da, da da da
ba ba da da, ba ba da, ba da da, da da da
