

Malaysia, Satu Untuk Semua

Assalamualaikum dan selamat sejahtera kepada semua rakyat Malaysia!!
Actually, this directory is intended to accept any incoming files from anybody who wishes to contribute something. Every person who wishes to put something here is welcomed to do so; just use the 'put' command and rename the file with a word or sentence common to all Malaysians. The Internet system and Internet Relay Chat (IRC) have made possible for us Malaysians to interact with each other and there might be some other ways which make use of electronic communication networks. Files in the ftp directories are free to anyone; just as anybody should be free to put something here. Wishing you all the best, having your hard time in colleges!!:)
