Maléna, Flashing Lights

Lost in the crowd of people I don't know
Their voices start to slow in my head, yeah
They trynna keep me where I don't belong
I start to like this all, is that wrong?

My mind's not mine anymore
Out of control
Time's spinning strange evermore
I'm hallucinating...

All these flashing lights in my sight sight
Blurry 'cause I cried, up all night
While I'm dancin' in the dark
These flashing lights in my sight sight
Got me hypnotised, up all night
I was dancing in the dark.

Lost in the moment I don't seem to care
About the troubles that wait out there, yeah
I close my eyes and see the colors flow
Lately I feel alone anywhere

My mind's not mine anymore
Out of control
Time's spinning strange evermore
I'm hallucinating...

All these flashing lights in my sight sight
Blurry 'cause I cried, up all night
While I'm dancin' in the dark
These flashing lights in my sight sight
Got me hypnotised, up all night
I was dancing in the dark.

It's hard to behave, there's no escape
I guess I'm stuck today
They never knew this side of my world like
Damn, I'm feeling so fly
Sweet little girl switched it up for a night
They never know who I hide inside
While I still dance in the dark, yeah

While i'm dancin in the dark
In my sight
I was dancin' in the dark
I was dancin'
In the dark
