

Malfunkshun, Mr. Liberty (With Morals)

Oh senorita dances for me
Complete with vaseline and LSD
My little doggie she barks all night
And no I've never owned a woman

A celebration in the city
And there's people running round

My little heart cries at night
Everyday it seems I die a little inside
But when I think I regret it like a girl
and now I am Mr. Liberty with morals

A celebration in the city
And there's people running round
