

# Maliah, Let Me Breathe

Verse 1:

Even though you said that you loved me  
You never cared about me  
You always knew in your heart I'd be there  
You never thought I'd want to be free  
But now that I have met him  
And he changed my world around  
You can't play the same sad song  
Because my heart has a new sound

Hook:

I need you let me breathe  
Because I can't be with you  
I need you to let me breathe  
Because the thought of you make me blue  
I'm much happier with him  
So you need to let me be  
I need you to let me breathe  
So that my mind can be free

Verse 2:

Now I know it hurts you to hear this  
But I can't play this game no more  
All the times that you loved me then leave me  
I'm finally walking out the door  
He treats me like a queen  
And that's more than I can say for you  
He knows me front to back  
And I know that his heart is true!

Hook 2x

Bridge:

I've seen this happen  
Way too many times  
You say you love me  
Then turn around and say goodbye  
I got a new man  
And he's gonna treat me right  
You never loved me  
Left me crying a many of nights  
And now I'm through  
I'm done with you  
It's time for me to leave  
Baby let me breathe
