

Malibu Stacy, I-Naked

Take my hair, blow it in the air, oh, there
As long as you don't stop my brain
From floating in the air as no one

Take my say, blow it in the air, oh well
You act like won't spare myself
I'm blowing in the air as no one

You won't have to beat no one
A second chance that's all I want
Floating in the space I'm in
You will never break it in
Come down thoughts of having no one
Come down thoughts of having no one
There is no...

Make my way, you devil-may-care, lay me bare
Or come up when the air is near
I keep spines in special lie
They growin' wild
Plastic bags won't reach silver skies, no

You won't have to beat no one
A second chance that's all I want
Floating in the space I'm in
You will never break it in
Come down thoughts of having no one
Come down thoughts of having no one
There is no...

You will never be the one
A second chance that's all I wanted
I'm not sur at all inside
And can come down at every moment
I'm not scared to move ahead
Jump out high at every motion
Scared ? Well, no
