

Malibu Stacy, Peniche Praia

Almost every night my dear, and almost, almost every day
There's a little thought of mine, and it's heading your way
It's passed the witching hour, and now it's knocking on your door
Come away with me darling, I'll give you this and more

Peniche Praia is waiting for you and it's also waiting there for me
A golden beach, a lick of surf and a cold continental brew
Peniche Praia, good god, worth a perfect 10 at least with you
See my bucket, spade and balm, and factor number 22

It's grand in town
And gardens are groovy too
It's grand in town
So many things that we can do
It's grand in town
And dolphins never, ever drown
Except from in the zoo

I say hello to the girl that you are
Cause I think that without you I wouldn't go far
And I pray we may do it today
Come away with me baby, I'd give you so much more

It's grand in town
And gardens are groovy too
It's grand in town
So many things that we can do
It's grand in town
And dolphins never, ever drown
Except from in the zoo

It's grand in town
And gardens are groovy too
It's grand in town
So many things that we can do
It's grand in town
And dolphins never, ever drown
I just put it away

I told Orion, about my plans for you last night
I think that he was listening, though his belt seemed pretty tight
He wasn't saying much, but I bet he'd suggest this song
And odds are good, that at night they come along

Because it's grand in town
And gardens are groovy too
It's grand in town
So many things that we can do
It's grand in town
And dolphins never, ever drown
Except from in the zoo

It's grand in town
And gardens are groovy too
It's grand in town
So many things that we can do
It's grand in town
And dolphins never, ever drown
Waouh !
