

Malinchak, Dragonfly (ft. MAX)

And I wanted you back
But the stars were falling
My heart was broke so hard
You could fall in
And I wanted you back
But my legs were aching
No new horizons closing in

Did you forget me?
How you set free
And I'll be better to love, better to love
Hand on my heart, I wanna be
There for you, there for us
Let me try
I wanna be, better to love, better to love
Can't live without you by with me
Better for you, better for us
Dragonfly

I wanted you back, but the strolls were blinding
Dry ice clouds up my eyes, frozen sun
I followed you back, don't know what I was thinking
And I saw you with him, burned me up

Did you forget me?
How you set free
And I'll be better to love, better to love
Hand on my heart, I wanna be
There for you, there for us
Let me try
I wanna be, better to love, better to love
Can't live without you by with me
Better for you, better for us
Dragonfly

I got what it takes, takes,
To melt everything
I got what it takes, takes,
To melt everything

And I'll be better to love, better to love
Hand on my heart, I wanna be
There for you, there for us
Let me try
I wanna be, better to love, better to love
Can't live without you by with me
Better for you, better for us
Dragonfly
I got what it takes, takes,
To melt everything
I got what it takes, takes,
To melt everything
I got what it takes, takes
